as a candidate for Congress from this, the Fifteenth District, subject to the Democratic Congressional Convention.

THE HERALD is authorized to announce

HON. J. N. GARNER,

a Candidate for Congress from this, the Fifteenth District, subject to the Democratic Nominating Convention.

THURSDAY, MAY 8, 1902.

THOSE Russian students seem to believe in the strenuous life.

THAT oil gusher at Piedras Pintas has not yet passed the "all but" point.

It was good-natured of Italy to pardon our Jackies, after they had attempted to palat Venies red. The boys should hereafter stick to marine blue when ashore.

THE proposition to amend the Constitution so as to elect three vice presidents instead of one is a good one—to turn down. What under the sun would the country do with three vice president? And what would the extra two do he sides dousing their salary?

THE Rev. Dr. W. S. Rainsford of Philadelphia assures the students of the University of Pennsylvania that "bad as New York has been Philadelphia in municipality now is worse than New York ever was. The city of Brotherly Love must be in a bad old way, if what the New York reformers used to say of their city be true.

JOHN D. ROCKEFELLER, said to be the richest man in the world, is starving to death because his stomach is so worn out that it cannot take sufficient or proper food to nourish him. Added to this affliction, Mr. Rockefeller has lately lost all of his hair, even his eyebrows falling out, and his head is as smooth and bald as a billiard ball. With all his millions, he cannot buy a new stomach, or root more hair on his scalp. No doubt, the richest man in the world would gladly exchange places with any healthy, stalwart young mechanic in the country. Truly, there are things more to be desired than riches.

THE Cubans may be glad to have the American troops leave the island yet they will doubtless miss them when they are gone. The Americans have spent immense sums of money in the island, and this has tided the poor people over a period when their war-ravaged lands were non-productive, and when the people themselves, impoverished and broken, would have been unable to gain a livelihood, if left to themselves. Not only in the sanitary regeneration of the island have the Americans benefitted Cuba, but also in the expenditure of so much money amongst her people, and in maintaining peace and order, keeping down the lawless element, whilst her industries were reconstituted and rebuilt. Had Cuba been left to herself at the outset, there is no doubt that the results would have been more or less disastrous, but now the time is ripe for the launching of the new republic, and there is every reason to hope that a peaceful and prosperous career lies ahead of it.

IMPURE BAKING POWDER SEIZED.

The New York Board of Health Find It Contains Alum and Rock, Declare It Dangerous to Health and Dump It into the River.

The New York papers report that the Health Department of that city has seized as dangerous to health nearly two tons of cheap mixtures sold for baking powder, and dumped them into the offal sewer to be destroyed. More of the powder was found in a Sixth ave. department store. The report of the analysis of the Health department stated that it was "an alum baking powder" containing alum and pulverized rock.

The different Health Authorities seem to have different ways of repressing the sale of bad baking powders. In England they have prosecuted the grocers under the general law and broken up the traffic. In Missouri the sale of alum baking powder is actually prohibited by law. In New York they seize the unwholesome stuff and cast it into the river, without any discussion. The latter way is certainly effective.

The alum baking powders are usually offered at a low price, ten to twenty cents a pound, or with some prize, as a temptation to the housewife.

Consumers can protect themselves by buying only high-grade baking powder of established name and reputation. Do not be tempted by the grocer to take something else as "just as good" or "our own brand," for the trials show that the grocer himself is often deceived by unscrupulous maker and is selling an alum powder without knowing it.

There are several good powders on the market; but the housekeeper insist on having what she knows is right, and not be induced to risk the life of the family for an imaginary saving of a few cents.

BROWNSVILLE surely needs a creamery. There is scarcely a pound of country butter on the market and northern butter (?) is not only scarce, but what there is to be had is generally so strong, by the time it reaches here, as to be not very palatable. A creamery would undoubtedly pay well here, and some of our people who have capital to invest should investigate the matter and see if they cannot establish one.

STATE OF OHIO, CITY OF TOLEDO, Lucas County.
